THE BLINDFOLD FRUIT TASTING GAME

A is for APPLE

1. Present apples (or a fruit of your choice) from 4 different varieties.

2. Divide the pupils into groups of four. Give each group an apple of every kind. Ask them to recognise the variety. They must cut, smell and taste the apples you gave them. They then take turns blindfolding a pupil from the group and giving them an apple to taste and recognise.

3. Who is the best taster?

4. For younger children, you can present similar fruits instead of apple varieties (e.g. peach/apricot, apple / pear etc.)
